About Us

Driver Technology Consulting, LLC (DTC, LLC), was started in December 1993 by Morris Driver, a 21 year Air Force Veteran. Initially the company provided computer repair services to family and friends. As the organization grew, the company diversified into providing break-fix services for customers of local retailers.

In February 1999, the company reorganized to provide Onsite/Remote Technical Support, Network Infrastructure Installation, Voice/Data Cabling Installation, Digital Media Installation, and Security Systems Installation

Today, DTC, LLC continues to grow and add new clients and services.

We thank our clients for entrusting us to handle your past, present and future information technology needs.
